

PrintShop Plugin for Acumatica

PLUGIN TO STREAMLINE YOUR PRINT WORKFLOW & AUTOMATE YOUR PRODUCTION JOBS

PrintShop is an extension of the Acumatica Cloud ERP

PrintShop for Acumatica lets you completely track your sales activities and capture crucial details so that you are production ready. In addition, PrintShop allows you to be more efficient with approval management and notifications.

- End-end management of your print workflow from Quote to Cash, Print Job Management with Type-Specific Job Cards, and Art Approval & Storage.
- Automate workflow processes to receive Real-time Notifications and track Work Progress.
- Manage Scheduling using a Calendar view and set up Auto-purchasing.

Dashboard – Quote to Cash

Manage custom decoration orders, production jobs, artwork management and approval processes, and automate your order fulfilment for all your print jobs - screen print, embroidery, promotional, digital, and custom job types.

KEY BENEFITS

CONTROL YOUR ENTIRE BUSINESS WORKFLOW

- Manage and improve jobs, design, and artwork.
- Manage art files, approvals, production orders and job setup screens.
- Manage ink, thread colors and resources.

INTEGRATION AND AUTOMATION

- Easily integrate with your current distribution and accounting features.
- Automate the workflow process.
- Import custom attributes to the apparel, such as jersey names & numbers.

PRODUCTIVITY AND TRACKING

- Track multiple setup screens for each order.
- View productivity gains for repeat orders.
- Enable notifications for job statuses and deadlines.

CUSTOMIZATION AND PERSONALIZATION

- Configure fields for custom production jobs.
- Customize print production reports.
- Track schedules and production dates.

ADD-ON FEATURES

- CRM-Customer portal integration for order approvals.
- Accept digital signatures on order approvals, shipments and more.
